DETAILED ACTION

Allowable Subject Matter

1. Claims 2-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Mesuda et al. disclose a jitter measurement system for a serial data stream comprising means for down converting the serial data stream to a lower rate serial stream, and means for measuring jitter from the low rate serial stream, where the jitter in UI is the same for the low rate serial stream as for the serial data stream, as described in the previous Office action. However, Mesuda et al. does not disclose that the means for measuring jitter comprises means for recovering a low rate clock from the low rate serial stream, and means for measuring the jitter from the low rate clock as recited in claim 2. Further, Mesuda et al. does not disclose that the means for measuring jitter comprises means for recovering a low rate NRZ signal from the low rate serial stream, and means for measuring the jitter from the NRZ signal as recited in claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
